

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

2021 End of Year Data and Statewide Assessments indicate that performance of students is below that which is typical in a school year not disrupted by the pandemic. Funds allocated from previous ESSER funds, supported a summer learning program at the end of the 2020-

2021 school year. Data from this program indicates summer programs were beneficial, as well as, being supported by parents. The district has opted to utilize ARP Set Aside funds to subsidize summer learning opportunities for the next 3 years in the district for students Grades K-12. Data collected from participation also indicated that students had successfully increased knowledge base Grades K-8 while students Grades 9-12 were afforded the opportunity to recover credits. All students in Grades K-12 will be encouraged to participate in summer school initiatives, including those from economically disadvantaged families and children with disabilities.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	1,800	Beginning data and end of program data collected will be compared to measure growth related to identified objectives established prior to the commencement of the program.
Children with Disabilities	Academic Growth	650	Beginning data and end of program data collected will be compared to measure growth related to identified objectives established prior to the commencement of the program.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

The district will partner with the Intermediate Unit I in creating a program that will address learning recoupment, while providing students opportunities to build resiliency as they engage in accelerated learning opportunities. The program entitled “Summer Learning Acceleration Academies for ELA/Math” will be held 3 days a week for 4 weeks; ½ day ELA curriculum and ½ Math curriculum. The Kindergarten program will be stand-alone curriculum. The program for

Grades 6-8 will be focused on STEM activities while the 9-12 program will be a recovery program for students needing to recoup credits. All programs were previously hosted by the district in the Summer of 2021. Feedback was favorable and data indicated students successfully met objectives set forth within the curriculum.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
15	Internal Provider	District teachers will participate in professional development provided by the Intermediate Unit I. Teachers will be assigned by Grade Band.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Intermediate Unit I Curriculum Based Assessment Tool	2 times	A pre and post assessment will be administered to students. It is expected that growth will be demonstrated upon completion of the programs offered.

6. How will the LEA engage families in the summer school program?

Parents will be informed of the district's plans for summer learning grades K-12. Registration opportunities will be available and assistance provided to parents/guardians who request it. Communication will be prioritized with economically disadvantaged and parents of children with disabilities regarding the program. A specific means of registration will be developed to assist all parents/guardians in registration for summer learning programs. Finally, a parent/family event will be held as a means to engage families in opportunities for continued learning beyond the summer program. A parent survey will be administered during the event.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**  
 \$125,027.00  
**Allocation**  
 \$125,027.00

**Budget Over(Under) Allocation**  
 \$0.00

Budget Summary

Function	Object	Amount	Description
1000 - Instruction	500 - Other Purchased Services	\$125,027.00	Contracted services provided by the Intermediate Unit I. Professional Development and Curriculum provided to the Albert Gallatin School District and taught by Albert Gallatin Teaching Staff.
		<b>\$125,027.00</b>
